PRELIMINARY INVENTORY**

The American Educational Studies Association (AESA) was established in 1968 as an international learned society for students, teachers, research scholars, and administrators who are interested in the foundations of education. AESA is a society primarily comprised of college and university professors who teach and research in the field of education utilizing one or more of the liberal arts disciplines of philosophy, history, politics, sociology, anthropology, or economics as well as comparative/international studies. The role of AESA is to provide a cross-disciplinary forum wherein scholars might gather to exchange and debate ideas generated from the above mentioned areas. [From the AESA website]
